

We're On The GSA!

AQUIS is proud to announce that it has been awarded a 5-year GSA Contract. As a GSA Schedule Contract Holder, we can now offer our value-added air handler refurbishment services with the convenience and value that only a GSA Contract provides.

Contract Number: GS-21F-0151X

DUNS: 807803866

Save your budget and avoid costly air handler replacement with the life-extending AQUIS System.

- Extends air handler life
- Stops damaging water leaks
- Restores structural integrity
- Slopes pan per ASHRAE 62.1
- Eliminates standing water
- Improves indoor air quality
- NFPA 90A fire code compliant
- No detectable odors or VOCs
- Minimal equipment downtime
- Expert AQUIS Installers

▶ "The AQUIS System did a great job of sealing the concrete floors in our air handlers to eliminate damaging water leaks. This has allowed us to prolong the life of our air handlers and avoid a very costly replacement. The AQUIS Installation Team did a fine job finishing the project on schedule and with minimum impact on my facility."

Aaron Heil, FSI Field Supervisor, Columbus, Ohio
