

# We're On The GSA!

AQUIS is proud to announce that it has been awarded a five-year GSA Contract. As a GSA Schedule Contract Holder, we can now offer our value-added air handler refurbishment services with the convenience and value that only a GSA Contract provides.

**Contract Number: GS-21F-0151X**

**DUNS: 807803866**

## Save your budget and avoid costly air handler replacement with the life-extending AQUIS System.

### AQUIS System Benefits

- Extends air handler service life
- Stops damaging water leaks
- Restores structural integrity
- NFPA 90A fire code compliant
- Slopes pans per ASHRAE 62.1
- Eliminates standing water
- Improves indoor air quality
- No detectable odors or VOCs
- Minimal equipment downtime

**"The AQUIS System did a great job of sealing the concrete floors in our air handlers to eliminate damaging water leaks. This has allowed us to prolong the life of our air handlers and avoid a very costly replacement. The AQUIS Installation Team did a fine job finishing the project on schedule and with minimum impact on my facility."**

**— Aaron Heil, FSI Field Supervisor, Columbus, Ohio**
